"Total Access 5000"

LED Test Button →
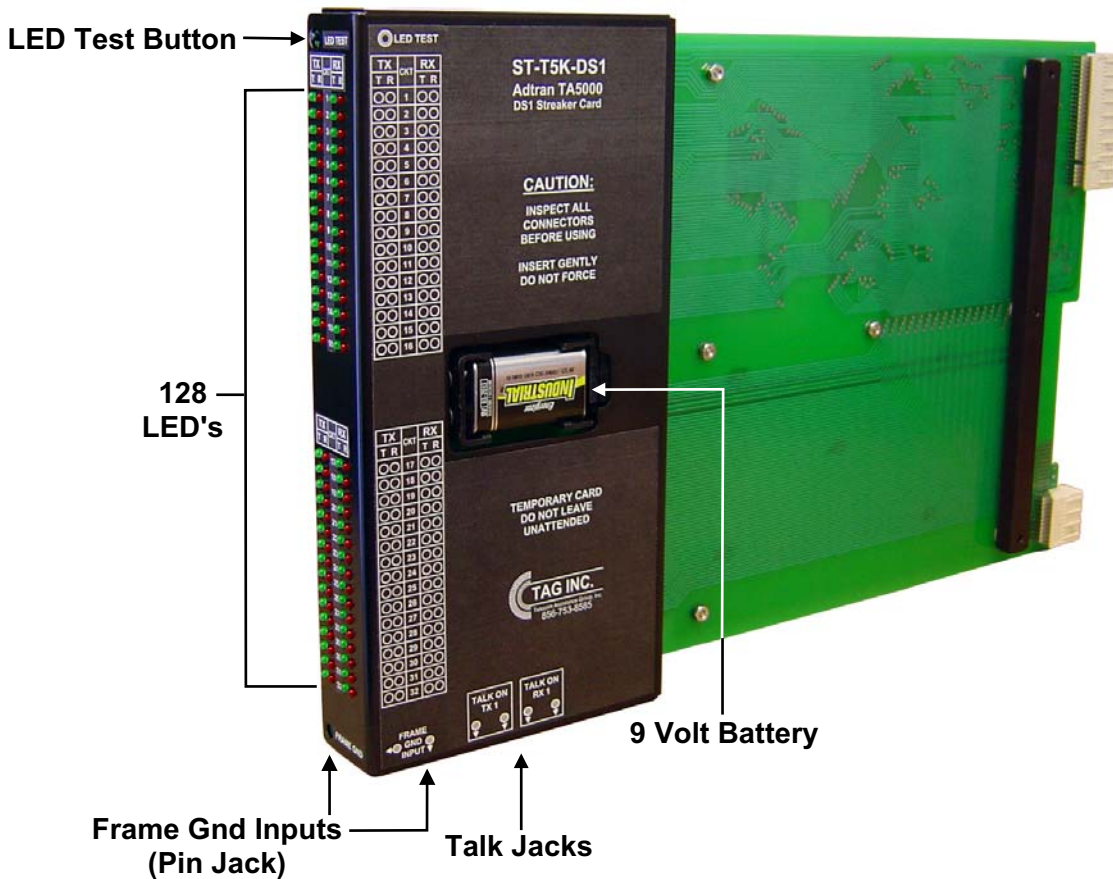

128 LED's

9 Volt Battery

Frame Gnd Inputs (Pin Jack)

Talk Jacks

Application:

The ST-T5K-DS1 provides a quick method to "streak", verify wiring via LED's, from the backplane of the Adtran TA5000 to the DSX-1. At the DSX-1 simply ground the corresponding pins and the ST-T5K-DS1 will light the LED associated with that connection. *(Can be used for both 32 port DS1 & 32 port DS1 Voice Gateway.)*
