 w/ LED, Long Pin - (6')

(1) 600209N
Carrying Case
 Approx. Dimensions: 9" (H) x 16" (L)

Application:

TAG's Nokia / Alcatel 7360 RT DSLAM Streaker Kit (7360KIT-02) is utilized by installers, maintenance and audit (acceptance) personnel. The Streaker Unit (CT-7360), used with the TAG Breakout Cable (400190AY), verifies wiring from the 7360 to the wire termination points located at the MDF. The "streaker" test determines that the 7360 is properly connected.
