

Tellabs 1000 24 Port High Density Streaker Card

ST-T1000HD

"Tellabs 1000 HD"

Application:

The ST-T1000HD is used during installations to quickly "streak", verify wiring continuity, from the backplane of the Tellabs 1000 to the Frame. At the MDF, Tester 2 will ground the connection point and the Streaker Card will light the LED associated with that connection. The wiring label on ST-T1000HD indicates 48 LED's for 24 circuits. The ST-T1000HD is powered by a 9-Volt battery.

Ordering Information:
