

## Ciena

### "CNX-5Plus™"

#### Application:

The ST-CN5-5PLUS provides a quick method to "streak", verify wiring via LEDs, from the Ciena CNX-5Plus backplane to the frame. At the frame simply ground the corresponding pins and the ST-CN5-5PLUS will light the LED associated with that connection. On powered shelves two (2) LEDs, (BATTERY A & B) are provided to indicate the presence of battery voltage. The ST-CN5-5PLUS Streaker Card does not require a powered backplane to test POTS or DSL Wiring.

#### Ordering Information:

<b>ST-CN5-5PLUS</b>	<b>Ciena CNX-5Plus Streaker Card w/ LEDs</b>	<b>Call for Pricing</b>
