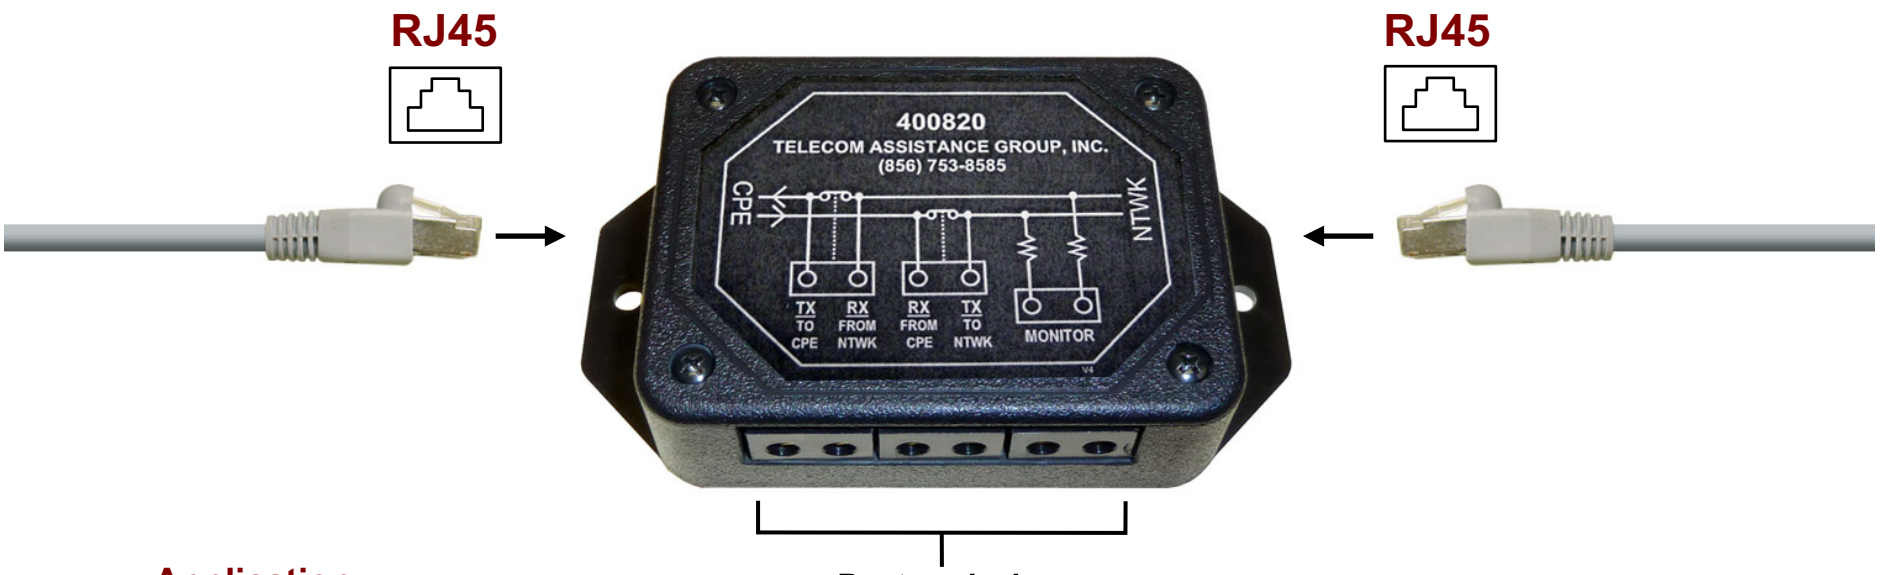
Business Class Network Interface Device (NID)



Application:

- One unit per T1 is required and is installed between the VGW and the customer PBX by the Business Class provider.
- The 400820 (NID) provides an input (Network) RJ45 port to connect the VGW to the NID. *The Business Class provider will be responsible for providing the connection from the VGW to the 400820 (NID).*
- An RJ45 port (CPE) provides Business Class customers a connection from PRI and the CPE PBX. *This connection is the customer's responsibility.*
- Bantam test ports are located on the bottom of the 400820 (NID) for future maintenance and performance testing connected to the preferred test set.
