Application:

TAG's Current Loop Adapters (PN# 400725SB & 400725SB2) are used to program and troubleshoot a DMS. The Hardwire Adapter (PN # 400725SBW) connects the TX (+/-) and RX (+/-) current loop wires to a 25 Pin female connector. It is used with the 400725SB2 Current Loop Adapter when the DMS 100/10 System doesn't have a DEC connector.
