25 Pair Amphenol Streaker Unit

CT-50

Application:

The **CT-50** provides a quick continuity "streaker" test with LEDs. Two installers can quickly test any equipment that uses 50 Pin Amphenol cables.

Tester 1 connects a 50 Pin Amphenol cable to the CT-50. Tester 2 scans the 50 terminated wires (ex. wire wrap block). Tester 2 uses the P-2000 (Protected Test Probe included) to touch the wire wrap pins to verify that the Amphenol pinout corresponds with the wire wrap connection points (ex. Pin 1 Amphenol = Ring - Pair 1 at the Wire Wrap Block).
